

IDOWU JOSHUA VICTOR

Software Developer · Creative Designer · Data Scientist

Lagos, Nigeria | joshmech851@gmail.com | +234 816 1523 407 | guruLabs.io

PROFESSIONAL SUMMARY

Results driven developer and GuruLabs founder with 3+ years in web apps, AI, and design. Expert in React, Next.js, and Python. Building KudiFlow and ScholarLens to bridge fintech and edtech gaps in Africa.

CORE COMPETENCIES

◆ React / Next.js	◆ Python / Data Analysis	◆ Figma / UI Design	◆ Startup Strategy
◆ HTML5 / CSS3 / JS	◆ Statistical Modeling	◆ Adobe CC Suite	◆ Product Development
◆ API Integration	◆ SPSS / R / SQL	◆ Brand Identity	◆ Team Leadership
◆ Firebase / Supabase	◆ Machine Learning	◆ Responsive Design	◆ Client Management

EXPERIENCE

Founder & CEO – GuruLabs | Lagos | 2025 – Present

- ▶ Built and scaled a technology studio delivering software, design, and data solutions to 10+ clients across fintech, edtech, and creative industries.
- ▶ Leading development of two SaaS products (KudiFlow & ScholarLens) from concept through design, development, and market launch.
- ▶ Directed client projects end-to-end: requirements gathering, design systems, development, QA, and delivery – consistently on or ahead of schedule.
- ▶ Integrated AI automation into client workflows, achieving measurable efficiency gains of 25–40% in targeted business processes.

Front-End Developer (Freelance) | Jan 2022 – Present

- ▶ Delivered 15+ responsive web applications and landing pages, consistently achieving Google Lighthouse performance scores of 90+.
- ▶ Engineered pixel-perfect UI implementations from Figma wireframes, integrating RESTful APIs, Firebase, Supabase, and payment gateways.
- ▶ Maintained 100% client retention across 8+ long-term engagements through proactive communication and high-quality delivery.
- ▶ Applied WCAG 2.1 accessibility standards, improving inclusive user engagement by 40% on average across client platforms.

KEY PROJECTS

KudiFlow – React · Next.js · AI APIs

AI financial SaaS with smart expense tracking and Paystack/Flutterwave integration.

ScholarLens – Python · Flask · PostgreSQL

Academic analytics with 85%+ CGPA forecast accuracy via Multivariate Linear Regression.

Portfolio Admin System – HTML · JS · Firebase

Full-featured portfolio with custom admin panel and Firebase CRUD.

Brand Identity Projects – Figma · Adobe CC

Visual identity systems for 5+ brands including logos and digital assets.

EDUCATION

BSc Statistics – Olabisi Onabanjo University, Ogun State, Nigeria

Self-Directed: freeCodeCamp · Coursera · Udemy · Scrimba · The Odin Project

Currently Pursuing
